

FOR IMMEDIATE RELEASE

GSA TO HOST STAKEHOLDER ENGAGEMENT ON LPG DOMESTIC CYLINDERS

ACCRA, OCTOBER 28, 2022 - The Ghana Standards Authority (GSA) is an Agency of Government responsible for developing, publishing and promoting standards in the country.

It does this through Standardisation, Metrology and Conformity Assessment. Activities of Conformity Assessment are testing, inspection and certification. These activities ensure that products or goods and services produced in Ghana, whether for local consumption or for export, are safe, reliable and are of good quality.

In line with its mandate, the Authority is inviting all manufacturers and importers of Liquefied Petroleum Gas (LPG) domestic cylinders or their representatives to a meeting on Tuesday, November 1, 2022, at its head office at Shiashie in Accra.

The meeting will discuss the quality of cylinders on the Ghanaian market and intention to conduct periodic factory and market surveillance.

Also, new developments in the industry will be announced to participants.

The meeting forms part of the GSA's mission of contributing towards the growth of industry and protect consumers through regular engagements with industry players.
